## Kennedy Plans Extended Stay At Palm Beach

PALM BEACH, Fla. — J.F. Kennedy today arranged to extend his stay in Florida.

Instead of following an original plan for spending Thanksgiving at his home on Cape Cod, Kennedy announced he will spend the holiday in Washington with his wife and young daughter. Then he will return to Florida for another five or six days in the sun.

Kennedy planned to take off later today for Austin, Tex., in a chartered jet for an overnight stay at the ranch of his running mate. He will return to Florida Thursday night.

Don Wilson, acting press secretary to the president-elect, said Kennedy on next Wednesday would fly to Washington to spend Thanksgiving Day with his wife Jacqueline, and their daughter, Caroline, who will be three years old Nov. 27.

Kennedy planned to fly back to Florida Thanksgiving night or the following morning, Nov. 25, and remain here for another five or six days.

Mrs. Kennedy is expecting her second child early next month and Wilson explained the decision to have the family Thanksgiving in Washington instead of Hyannis Port, Mass., was because such an arrangement would be more convenient for her.

## Two Bound Over In Medicine Case

Two of three men arrested in the "cure-all" case in Palm Springs on Oct. 16, were bound over to Superior Court for trial by Justice Court Judge Eugene Theriault yesterday.

Freed because of insufficient evidence to connect him with any crime was the third man, George Winston Davies, 57, Beverly Hills real estate man, who is reportedly a British subject, born in Liverpool, England.

GEORGE OSCAR Mellon, 38, Palm Springs real estate man, who entered a plea of not guilty, and Dr. Anton Raman Schenk, 40, were held to answer in Superior Court in Indio following their preliminary hearing in Palm Springs. Mellon entered plea of not guilty at the preliminary hearing, with

Dr. Schenk entering a plea of guilty to the charges of practicing medicine without a license. Dr. Schenk is a Mexican citizen.

CHIEF WITNESS against the trio was David May, chief medical investigator for the State Medical Board, who arrested the trio after submitting himself as a prospective patient.

He testified that the men were selling the "cure-all" for a "donation of \$2,000." He said they also said the shots would "cure cancer" and advertised the treatment also as a "rejuvenating elixir."

Davies maintained that he had only been interested in the project as an investment, and that he had understood that the program would only be under the administration of competent medical men.

#### 'H-Bomb Father' Is Luncheon Speaker Today

Dr. Edward Teller, the "father of the H-bomb," today told members of the County Supervisors Association of California of their growing responsibility in the defense of America.

Dr. Teller, former director of the Lawrence Radiation Laboratory and presently a professor of physics at the University of California at Los Angeles, addressed the 50th annual meeting of CSAC convened for his luncheon address in El Mirador Hotel today.

Teller discussed "The Role of the H-bomb" before the supervisors in launching the three-day meeting.

Later today, Dr. Teller — an outspoken advocate of resumption of nuclear testing — goes to Indio where he will address the National Aeronautics Association tonight.

He is expected to fly back to Los Angeles following tonight's address.

Teller's address today unveiled a battery of outstanding speakers to follow.

LATER THIS AFTERNOON, the supervisors were to hear addresses by TV commentator George Putnam and U.S. Senator Alan Bible of Nevada.

In his speech, prepared for delivery, Bible declared that the vigorous pattern of population growth in the nation's metropolitan areas has shifted a large share of the burden of local government leadership from city officials to county officials.

He predicted that the county would become the dominant unit of local government in many metropolitan areas during the coming years of urbanization.

REGIONAL BREAKFASTS will launch tomorrow's action. A series of section meetings will follow and will deal with taxation, employee relations, and welfare.

Tomorrow's luncheon speaker will be architect Charles Luckman and his topic will be "Planning for People."

### Rogers Calls For Indian Unity in Talk

Calling for a strong unity of Indian nations, former Congressman Will Rogers, Jr., told the Governors' Interstate Indian Council "we have to have a unified organization which can bind the tribes of the nation together to unite in needs and causes."

At a banquet dinner at the Oasis Hotel last night, Rogers told some 100 persons attending the national council that "the American Indian is deeply ingrained into the minds of the people of the world. Seldom does a visitor come to the United States that they don't want to know all about the American Indians, and Fidel Castro used America's treatment of the American Indian as an example of treatment of a conquered power."

The four day session of the GIC ends at noon today with the representatives of 19 state governors returning to their homes.

### WOMAN WANTS WATER OUT OF TAP, NOT MUSIC

MIDLAND, Tex. (UPI) — Mrs. Virginia Kimmey was so startled when music started coming out of the hot water tap, she didn't finish her bath.

It happened Tuesday while she was busy scrubbing away in the solitude of her bathroom. Suddenly, from the faucet came the faint but distinct sound of music from a Midland radio station.

She screamed and jumped out of the tub.

Engineers at the station said a freak signal wave caused the metal faucet to pick up the music.

### School Opened For Second Day

NEW ORLEANS (UPI)—More than 5,000 mothers and teen-agers, urged to "civil disobedience" by segregation leaders, ran screaming through the streets of New Orleans today and police turned fire hoses on them.

"On with the water, on with the water," the mob screamed as it advanced on the offices of the Orleans Parish School Board, which opened two integrated elementary schools for the third straight day.

FIRE TRUCKS were lined up in front of the offices after the crowd broke away from encircling motorcycle police.

The firemen turned on the hoses and the crowd surged into the stinging water and kept going. The crowd advanced into the full flow of the water and stood there waving Confederate flags and shrieking "two, four, six, eight, we don't wanna integrate."

Every time firemen turned down the water pressure the crowd surged forward again.

AFTER NEARLY an hour of drenching, the crowd began to break up and police at the schools braced up last night march on the schools.

Eggs thrown by the mob littered the streets and soggy Citizens' Council pamphlets floated in the gutter.

Police threw heavy guards up around two newly integrated schools and rushed fire trucks to McDonogh 19, where a bomb hoax was reported.

THREE NEGRO girls are attending McDonogh and one is attending William Frantz Elementary School. They started classes in the formerly all white schools Monday and attended today for the third day.

The two integrated schools were almost deserted by white pupils today. Normally, a total of 1,045 pupils attend the two schools. Today only about 100 were present.

### BREAKS BONE IN BACK

## Churchill Falls, Confined to Bed

LONDON (UPI) — Sir Winston Churchill, who will be 86 years old Nov. 30, suffered a fall in his London home today and was said to have broken a small bone in his back. The injury was described as not serious.

A spokesman said the aged statesman, who in recent years has been unsteady on his feet and supported himself in public with a cane, will have to remain in bed for a little while.

THE NATURE of the injury was announced at Churchill's home in Hyde Park Gate in London's fashionable West End.

After the fall he was examined at his home by Herbert J. Seddon, an orthopedic surgeon from the famed Harley Street medical area, and by Lord Moran, his physician.

His last public appearance was Tuesday when he put in one of

MANY OF A CROWD of more than 200 teen-agers who surged toward one of the schools Tuesday attended an emotion-charged segregation rally at Municipal Auditorium Tuesday night.

### Load of Cotton Destroyed in Trailer Fire

INDIO — Truck owner Ray Sharp, of Pixley, Calif., received burns on both hands at 12:15 a.m. today, as he helped his driver, Charles Richard Ward, 22, of Tulare, uncouple his diesel tractor from a flaming semi and semi trailer here.

Sharp and Ward had left Blythe with a load of cotton under canvas at approximately 8 p.m. At 11 p.m., they stopped here to eat and service their truck. An inspection of the load revealed nothing wrong.

As the truck headed west on Highway 99 near Madison Street here, Ward noticed sparks flying from beneath the load cover and braked the big tandem semi to a quick roadside stop.

California Highway Patrol officers reported that the trailer and its tandem totally destroyed with the cotton, but the tractor was saved. The fire was of unknown origin and the value of the load was not made known.

## Christmas 'Mail Early' Drive Begins

**Yuletide Record  
Seen Here by  
Postmaster**

Faced with the possibility that the 1960 Christmas season will set an all time holiday mailing record, Postmaster Merritt Williams announced today that he's starting his annual "Mail Early For Christmas" campaign immediately.

The postmaster offered these helpful mailing tips to insure delivery of Christmas cards and gifts on time.

"FIRST, CHECK your Christmas card list very carefully — make sure each address is complete with full name, street and number, city, zone and state.

"Second, for your Christmas gift packages, stock up now on heavy wrapping paper, sturdy corrugated cartons, strong cord, and paper adhesive tape.

"Third, remember that you can include your Christmas card or letter inside your gift package by adding the appropriate First Class postage to the package itself.

"Fourth, buy your postage stamps now. Don't wait until the last minute when long lines form at the stamp windows."

THE POST OFFICE will help plan Christmas mailings. A copy of Pamphlet No. 2, which gives full information about proper packaging and wrapping of parcels, is available. The Post Office will also supply free labels which read, "All for Local Delivery" and "All for Out of Town Delivery," so that Christmas cards can be sorted into groups, with addresses all facing one way, thus insuring fast delivery.

Williams advised using only First Class postage on your Christmas cards. Cards sent by First Class four cent, or seven cent Air Mail, may include personal handwritten messages. First Class mail also receives full forwarding and return service.

THE POSTMASTER said that he is making many advance preparations to handle the 1960 Christmas mail rush by putting on extra mail clerks and carriers, and by arranging for expanded facilities all around.

He requested that everyone make it a point to mail Christmas cards and gifts for the most distant points well before Dec. 10. Those for nearby destinations should be mailed by Dec. 15th, or at least a week before Christmas.

SAN ANTONIO, Tex. (UPI)—If the postman always knocks twice, maybe firemen should, too. Fire Chief M. L. Rogers has decided.

After the first year of the department's home inspection program, firemen discovered 26,361 fire hazards in 19,924 homes, but were refused admittance to 2,000 homes at which they knocked for inspection purposes.

The two were last seen Nov. 8 at St. Mary's Hospital here, where the priest served as chaplain. Miss O'Connell, described as emotionally upset, had been admitted to the hospital that day for treatment.

## Proposition One Committee Tells Voters 'Thanks'

In closing the books on proposition 1, Ruth E. Peters, Director of Riverside County's State Water Bond campaign, Fred C. Jennings, chairman of Riverside County California Water Association, and Doyle F. Boen, president of Riverside County Water Association, issued a joint statement yesterday thanking all those organizations and individuals whose support and dedication made possible passage of the water bond issue Nov. 8.

"We want to take this opportunity to thank everyone, including the voters, who contributed to this victory," the statement read. "Newspapers and radios of the county deserve special mention for their assistance in printing and broadcasting the facts, keeping the issue before the public and doing the educational groundwork."

"Special mention too must be made of the work of the Feather River Project Association in providing the two fine films, "Waterama" of last year and "Water and You" which were used in providing citizens with a visual picture of the objectives of California's Water Plan."

"Had voters not been educated with information disseminated by the county press, radio and Californians for Water, the issue might well have failed. As it was 77,002 voted for the measure in Riverside County while 23,719 opposed it. This was a better than 3 to 1 margin, or a record approval for any county of the state."

"Since the issue passed by only 139,904 votes, it is not difficult to appreciate the importance of the effort made in Riverside County. However, now that the smoke of battle has settled, we can move forward with the assurance that passage of Proposition 1 means the dawn of a new era for California and assures progress and prosperity in Riverside County for the next century."

## Senior Citizens To Meet Thursday

Senior Citizens will meet at 2 p.m., Thursday, at 444 North Indian Avenue, with Chester Wood and Charles Selin of Long Beach as speakers. Ray Hiller, local representative, announced today. Their subject will be housing and medical care for Southern California.

## Dutch Coed Is Rider

### Visitor Is' Desert Rat' Now

By FRED C. WEIGEL  
 A little Dutch girl, who had a strong desire "to learn to ride horseback," got her wish when she was sent to Palm Springs as an exchange student by the American Field Service.

Antoinette Van Reik of Naarden, Holland, applied to the AFS to come to the United States, and noted that if she was chosen she would like to learn to ride horseback.

When the Dr. C. H. Woodmansees applied to AFS to have an exchange student in their home, they said they were horse lovers and would enjoy teaching an exchange student to ride.

Somewhere among all the papers which filter through the AFS every month, the two applications found their way together. Early in September of this year Antoinette found herself on her way to Palm Springs, to the home of her adopted parents, Dr. and Mrs. Woodmansee and her new American sister, Gay Woodmansee.

Barely days passed before the Woodmansees had the 17-year-old girl from Holland on horseback, teamed with her American sister, 15-year-old Gay. The duo now ride the lowlands and mountains of the Desert area.

MRS. WOODMANSEE, an expert horsewoman herself, has been Antoinette's teacher, and reports that the Dutch girl is learning fast.

"She will be an expert herself by the time she returns to her country next June," said her teacher.

In general, pretty, friendly Antoinette has adapted to Western life with the greatest of ease. She climbs mountains with about as much skill as she rides horses, and none of the Desert creatures or plants seems to bother her, for she loves animals and wants to become a biologist.

In Antoinette's low and verdant country of Holland, the closest thing to a mountain is a small group of scattered hills in the lower part of the country.

She is continually amazed and looks in wonder at Palm Springs' towering mountains and lack of green growth. She watches in wonderment at each Desert sunset, a sight which brings a brilliant glow to her face.

She loves every aspect of Desert life and is looking forward happily to not only an educational winter, but also to learning about America by being a resident here.

Her adopted sister, Gay, thoroughly enjoys her adopted sister, and looks for her friend from the Netherlands to become a confirmed "desert rat" before she leaves for home next June.

**Pests Damage Crops**  
 WASHINGTON (UPI) — California agriculture lost an estimated \$177,974,144 because of insects last year, according to the U. S. Department of Agriculture.

The total includes estimates of actual crop damage and the cost of controlling the pests.

**CAMARA CLUB SHOTS UP LOTS OF FILM SUNDAY**

Eleven members of the Palm Springs Camera Club shot up large quantities of color film Sunday in the first of a series of workshops designed to improve specialized techniques.

Both Stebbins of Neilson Road opened her home and grounds to the portraiture experiments planned by the club in preparation for a portraiture contest scheduled early in December.

Members participating were Wendell H. Kinney, Fay E. Brannard, Norma Armstrong, Henriette King, Mrs. L. D. Owens, Pat Rogers, Mrs. J.V.C. Gregory, Ray G. Stevens, Earl Snowden, Ed Dotzauer and Beth Stebbins.

SADDLING UP FOR A RIDE in the desert, Antoinette Van Reik of Naarden, Holland, an American exchange student in Palm Springs, is watched by her adopted mother, Mrs. Clare Woodmansee and her "adopted" sister, Gay. The Woodmansees keep their horses at Los Compadres and the little visitor from the Netherlands is fast becoming an experienced horsewoman and confirmed "Desert rat." (Desert Sun Photo)

## AFTER SUNSET

# La Cherry Blossom Delays First Opera

By GEORGE LAINE  
La Cherry Blossom Opera Company announced today that it will not produce an opera in Palm Springs until January.

Spokesman for the company blamed "a startling public apathy and a certain preoccupation with other interests."

**THE COMPANY DID** say, firmly, that it intends to present its season — a foreshortened program of four evenings of opera — beginning on Jan. 29 with "Madama Butterfly," featuring Dorothy Kirsten and Daniele Barioni.

The second opera will be the twin presentations of "Cavalleria Rusticana" and "Pagliacci" which had been scheduled to open the season at the Riviera's Mediterranean Room Sunday night. It will be given on Feb. 23.

The season will conclude with Giordano's "Andrea Chenier" on March 18 and Puccini's "Girl of the Golden West" on April 19.

**THERE'S SOMETHING** to be said here and I doubt if I'm quite the person to say it.

It would have to do with what appears to be an almost wholesale denial of things cultural — unless the opportunity to show off a new mink is present or a party at some country club isn't in competition.

This attitude has applied to drama, music, art and lectures in Palm Springs since I've been here and if I were to be called

upon to define it, I'd have to term it appalling.

But, like I say, I doubt if I'm quite the person to say it. (I also doubt if I really have to say it. People's actions, as Teddy Roosevelt once declared, speak so loudly that you can seldom hear the words they speak.)

**MEMORIAL RITES** were held in Hollywood Memorial Park yesterday to commemorate the death a year ago of actor Tyrone Power. And Walter Catlett, who was 50 and one great character actor, died Monday.

Add lawsuits: Lucille Ball and Desi Arnaz sued for \$800,000 over a "baby walker" which a designer claims he invented but which she says came out as the "Ricky, Jr." and without recompense to him. Also Mickey Rooney, doubled sued by (1) his fourth wife — I forgot her name but so has Mickey — and (2) Republic Studio, over a loan.

Add marital strife, etc.: Ethel Merman says she'll divorce Continental Airline proxy Bob Six, an off-time Village visitor. And May Britt Davis was confined to her Hollywood home with intestinal flu while hubby Sammy Davis, Jr., was opening at the Curran Theater in San Francisco.

**NOTES OF THE CUFF:** People who knew her back then were saddened by the death of Cecile Graham, known as Cici Evans, "the girl with the \$100,000 legs," on Friday. . . . She died less than a week after the passing of the man who discovered her — Mack Sennett. . . . Nick Maff, who moved his "Dino" — Sportsman for Men — to 330 North Palm Canyon, says he's miffed because Police Chief Gus Keltmann frowns on his wearing one of his imprinted sport shirts while wheeling his police cycle around town. . . .

**Clock and Dagger**  
VIENNA (UPI) — Richard Widmark claims that the Austrian capital still is the unchallenged espionage center of Europe. While filming "The Secret Ways," he hired a spy-about-town as a technical consultant and said that within hours after secret operators had applied for a job — to spy on the spy.

DISCUSSION GROUP ponders question phrased by John Robert Clarke during one of his "Adventures in Living" lectures in the Biltmore Hotel. ## THE LIVELY ARTS

# Whittier Poems Get 'Analysis'

A lecture — portrait of the "greatest original force" in American poetry will be presented by John Robert Clarke when he speaks on "Walt Whitman's Design for Human Vitality," at 8 p. m., Thursday, in the Palm Springs Biltmore.

The portrayal of Whitman's life and ideas in terms of today's world will be the fourth in the current "Adventures in Living" series of public lectures designed to buttress today's enjoyment through shared study and discussion of our human heritage.

**CLARKE WILL SIFT** among the Whitman poems to inquire how much romantic illusion figured in

this poet and much his ideas hold for persons today.

"Whitman was a spectacular wallflower as long as he lived, who irritated almost everybody but Emerson," said Clarke this week. "Wherever he went, his strange lingo, his revolting self praise wearied the people so that they put 'Leaves of Grass' aside or as the famous Whittier did — threw it to the flames."

"Hoping to gain readers, Whitman dangled around newspaper offices grimly writing his own admiring reviews under an assumed name. After his death, the Whitman of today came to life, and he established chain — stores of optimism wherever his books were read. Only then did people begin to see the significance of his work and his way."

**RESERVATIONS FOR** Thursday's Whitman lecture may be taken at the Desert Book Shop or at the Biltmore Hotel, it was announced.

Other titles and dates in the current series are: "The Friendly Alligators of Sarah Bernhardt," Nov. 25; "The Different Eyes of Charles de Gaulle," Dec. 1; "The Psychic Wardrobe of Salvador Dali," Dec. 8; and "The Art of Enjoyment in a Space-Age," Dec. 15. Clarke, author of "The Importance of Being Imperfect" to be released in New York by David McKay Company this February, follows each lecture with refreshments and a "great-circle discussion" to encourage audience participation.

**Chooses Jail**  
SPOKANE, Wash. (UPI) — Justice of the Peace James Ben McInturf fined Robert J. Leonard, 18, \$10 for driving his 1936 car with defective equipment. Checking the record, he found that Leonard also had violated an earlier court order to remain afoot for six months. McInturf offered the youth a choice: between confining his car to a storage garage for two months or spending 10 days in jail. Leonard chose jail.

YOU CAN MAKE SURE THE PLUMBING GOODS  
AND SERVICES YOU BUY MEET THE HIGH STANDARDS OF THE  
PLUMBING INDUSTRY PROGRESS & EDUCATION FUND

*look for this emblem...*

The Plumbing Industry Progress & Education Fund was formed in the public interest by the responsible members of the plumbing, heating and piping industries.

History has proven that health depends upon sanitation and sanitation depends upon properly installed and maintained plumbing, heating and piping systems. Less than a hundred years ago epidemics raged which wiped out thousands; epidemics which have vanished from the American scene with the development of modern plumbing.

In today's teeming cities each of us is linked to his neighbor and to his community by a complex system of plumbing, heating and piping facilities. The ignorance of an untrained workman, or the blunders of a "do-it-yourself" homeowner making his own plumbing, heating or piping repairs, can break a link in this chain of safety which can endanger the health of hundreds.

To make certain that your home, your family and your community are kept safe and comfortable, the PLUMBING INDUSTRY PROGRESS & EDUCATION FUND has established these aims:

- To keep the public informed of the continuous need for plumbing standards that protect the health of all.
- To make certain that only trained and qualified men are permitted to install and maintain plumbing systems.
- To cooperate with all industry groups and civic bodies in maintaining and upgrading public plumbing standards that protect the health of all.
- To support adequate training programs that will continue to provide men qualified for this vital work.
- To encourage industry research for new and better plumbing products to improve health, comfort and safety.

## Theater Fire Toll Hits 163 —Mostly Children

AMUDE, Syria, U.A.R. (UPI)—The death toll rose to 163 yesterday with the discovery of 11 more bodies in the wreckage of the Sherazad movie theater which was destroyed by a flash fire Sunday night, trapping most of an audience of children.

Officials said 122 of the victims were children under the age of 14, killed when the walls and ceiling of the wooden building collapsed. The others were burned to death.

The number of seriously injured was yet undetermined as doctors from all over the Syrian region of the United Arab Republic were rushed to this railroad town in northeast Syria close to the Turkish border.

Witnesses said the flash fire started in the projection room during the screening of a special film for students. They said a spark from the projection machine ignited a pile of film and that it immediately "exploded."

The flames swept through the theater, which immediately collapsed, helplessly trapping the children.

About 90 per cent of the heat striking the outside of a house is concentrated on the roof, according to Allied Chemical's Barrett Division.

Scheffing Named To Pilot Detroit In 1961 Season

NEW YORK — (UPI) — Bob Scheffing, who warns "don't expect miracles because I'm no miracle man," has been selected to manage the Detroit Tigers in 1961, it was learned today by the United Press International.

The selection of the 45-year-old ex-Chicago Cub pilot will be formally announced within the next 10 days in order that Scheffing will be able to be with other club officials during the major league meetings beginning in St. Louis on Dec. 5.

## Indian Grids End Season this Week

Palm Springs High School football teams — Varsity and Junior Varsity — close out their 1960 season this week, both having Twenty-nine Palms teams as opponents.

The Varsity, having to settle for third place in the Desert Valley League as result of its narrow defeat last Friday at the hands of the Coachella Valley Arabs, is out of any play-offs.

IN THE JAYVEE division, Indio meets Yucaipa Friday at Banning and Coachella clashes, Thursday at Banning.

Lloyd (Ikey) Gauff's touchdown and conversion against the Arabs last Friday kept him in the lead in Tribe Varsity scoring.

Indian Varsity scoring to date:

Kilmer Dominates Big 5 Statistics In Total Offense

SAN FRANCISCO — Bill Kilmer, All-America candidate from UCLA, dominates Big Five statistics released today.

What makes the UCLA tailback's feat more amazing is that he and his Bruin teammates have played only seven games, while the other four teams in the league have played nine each.

Kilmer has picked up 1330 yards rushing and passing to lead total offense figures.

He has gained 447 yards rushing, good for second place in the league, and 893 passing, which places him third in the loop.

Washington soph Charlie Mitchell leads the rushers with 456 yards while Stanford's Dick Norman tops the passers with 294 yards. Bob Hivner of Washington is also impressive in the passing statistics. He has the best completion record with 26 of 46 and gained 466 yards for an average of well over 10 yards per pass.

Norman's favorite receivers Skip Face and Mac Wylie, lead the reception figures. Face has caught 23 passes for 254 yards and Wylie 30 for 303 yards.

George Fleming of Washington is way out in front of the scoring race with 63 points and the versatile Komer is the loop's top punter.

## Missouri, Iowa Solid Favorites For Bowl Bids

NEW YORK — (UPI) — Topranked Missouri and third-ranked Iowa, both seeking post-season bowl bids, are solid favorites to further their chances for the "Glory" games this Saturday.

Missouri, winner of nine straight this season, is a seven-point pick over Kansas and Iowa is favored by 14 points over Notre Dame. A victory for Missouri will clinch the Big Eight title, an Orange Bowl berth and more than likely the national college football championship.

The once-beaten Hawkeyes of Iowa, already assured of at least a tie for the Big Ten championship, are in the running for a Rose Bowl invitation.

Fourth-ranked Minnesota, which can tie Iowa in the Big Ten, is a seven-point favorite over Wisconsin. A Gopher victory also would make them strong candidates for a Rose Bowl bid.

FIFTH RANKED Washington, the host team at the Rose Bowl by virtue of its Big Five championship, is favored by 13 points over Washington State.

Second-ranked Mississippi and seventh-ranked Navy are idle this week.

In the far west, UCLA is a 12-point choice over Southern California and California is four over Stanford.

## Greenberg Sees Way Clear for L.A. Move

NEW YORK — (UPI) — Hank Greenberg said today an amendment to baseball's rules that would clear the way for the American League's expansion to Los Angeles already has been submitted to the major leagues.

Greenberg, who is the organizer of the group which plans to operate the new AL franchise in the West Coast city, made the comment in response to Commissioner Ford Frick's statement that new franchises in Los Angeles and New York face a snag called "Rule One-C" of the big league rules.

"IN THE FIRST PLACE," said Greenberg, "everybody was under the assumption that the commissioner already had declared those cities open cities. This is a matter which will have to be resolved on Thursday when we all sit down with the commissioner."

"Otherwise," Greenberg continued, "it is clear that Rule One-C must be changed in order to pave the way for expansion in 1961 — and I am sure that the rule can be amended. In fact, the American League already has submitted the necessary amendment. It's up to us now to vote on it."

RULE ONE-C STATES: "To provide and stimulate competition for the league pennants and for the world championship, the circuit of either major league shall not be changed to include any city in the circuit of the other major league except by the unanimous consent of the clubs constituting both major leagues."

Under that rule, Los Angeles Dodger owner Walter O'Malley — or any other National League owner — could prevent AL's expansion into Los Angeles by simply voting against it. National League sources say that would be a foregone conclusion.

"Rule One-C does not prevent the establishment of major league teams in Minneapolis St. Paul or Houston, since neither is now occupied by a big league team. But it is unlikely that either league would seriously consider expanding to nine teams."

"Rule One-C definitely is a hitch to both expansion plans," said Frick in his surprising announcement. "But I couldn't say how serious a hitch it is."

Frick added that nothing can be done about the rule until the major league meetings in St. Louis starting Dec. 6 but said, "I certainly hope the obstacle can be cleared."

Frick has indicated that he will vote against expansion if the two leagues disagree on a rule amendment and leave him with the decisive vote.

## Around Town

... with Hildy Crawford

It's a sure-fire recipe ... Take a jam session ... a group of young, fun-loving stars ... mix well ... and you come up with a "jar" session (don't try to figure that one out ... it's just an outrageous mixture of two words ... jam and star) ... and that's what will be going on out at Whispering Waters this weekend ... The ownership of this Blue Chip Strip hotel ... sounds more like a cast ... Hugh O'Brian, Carolyn Jones, Lloyd Bridges, Dennis Weaver, Pat Conway ... These stars will be appearing informally and on a couple of scheduled shows in the diningroom ... They have also persuaded several of their friends ... Betty Garrett, Nick Adams and Larry Parks ... to join them ...

The jam session is set for Friday night ... and Saturday night there will be two shows ... one between nine and ten and one about midnight ... The shows were written especially for this evening and features all the stars in satirical skits ... It was written by talented Aaron Spelling (Carolyn Jones' husband) ... and his got to be an unforgettable production ...

The diningroom and lounge are the intimate type ... so there's the problem of getting in ... The policy is first come ... first served ... with later arrivals going on the waiting list ... From what I hear about the show ... it should be worth waiting on ...

It's new ... It's fun ... and it's at Howard Manor ... This week the Manor started its daily buffets ... and judging by the attendance ... this should become a popular luncheon spot ...

The buffet table ... was centered with a huge Thanksgiving arrangement of chrysanthemums, creamy gladioli and spike of wheat ... with fruit spilling out of baskets onto the table ... The buffet offers a choice array of salads at one end ... and hot dishes like chicken a la king on rice pilau and veal rolled in cabbage leaves ... at the other end ...

The models showed capris and shorts and blouses and swim suits ... in the bright colors of our California designers ... and of Pucci, Italy ... The hats were mad and the clothes colorful in the resort manner ...

Robinson's hat entry from the Hat Parade Luncheon was modeled by Rosalie Orloff ... Nora Hyams modeled the gold outfit and hat that won Janice's trophy for best commercial entry ...

Grace Pope was there (her first appearance this season) with new Villager Jane Nance of Beverly Hills ... who has just moved into her house on Aquanetta ... Grace expects to come back the first of the year for a few months ...

Gretchen and Waltah Clarke jetted to New York this week ... and will be at the Waldorf-Astoria for a couple of weeks ... buying for their new International Shop ...

Then they go to Chicago for Thanksgiving with Gretchen's parents ... Dr. and Mrs. Rolf Klaus ... The Clarkes' three children ... Walter Jr., Heather and Rolf ... will be with them ...

Frank and a table of friends ... At another table were the Glenn Austins, Ken Grows, Earl Hendersons, Mrs. Carl Schooss ... At another big table were Connie Barleau, Lucille Nasko, Ethel Strebe, Mrs. Julian Stiff, and a group of friends ...

With the Art Letherbys were the Charles Millikins of Palm Desert ... With Mrs. Joe Miller and Mrs. Sam DeSarno was Nadine Henley of West Hollywood ... Joe and Sam (hotel owners) and manager Bob Taliaferro were happy with the gay crowd ... and said they hope the buffets start a "meet you for lunch at the Manor trend" ... They may, too ...

After 16 years of living in San Francisco ... and spending their winters in Palm Springs ... the Howard L. Hayes have decided to reverse the process ... they and their son Binki ... will become permanent residents of Palm Springs ... arriving at their home here at 903 Regal Drive in January ... # LINCOLN CONTINENTAL

So brilliantly engineered,  
so carefully built it is dealer-warranted  
(for two full years or 24,000 miles,  
whichever occurs first\*)

"Classic beauty in a smart new size." Here is the first fine car that is truly luxurious to drive in today's traffic. Thoughtful engineering has created a superb six-passenger automobile that is 14 inches shorter—yet as heavy or heavier than other American luxury cars, to provide the solid ride you expect. It also has devised center-opening doors that make entrance far more convenient, contour-zoned seats that are cushioned with nearly three times the usual amount of foam rubber, vacuum-locked doors that bolt shut at a flick of the driver's finger, silent, hydraulic windshield wipers with 50 per cent more power, a quality program that puts every car through a 12-mile road test and brings high precision standards of construction to America's largest V-8 engine. A glance reveals the character of this tremendously advanced car, the enduring beauty of true classic design, the excitement of America's only four-door convertible. But it is only at the wheel that you begin to understand the real significance of the new Lincoln Continental, the brilliant blend of sensible size and total luxury. Why not make that discovery yourself, this week? Lincoln-Mercury Division, Ford Motor Company.

\*The terms of the extended warranty provide that for 24 months or for 24,000 miles, whichever comes first, free replacement, including related labor, will be made by dealers, of any part with a defect in workmanship or materials. Tires are not covered by the warranty; appropriate adjustments will continue to be made by the tire companies. Owners will remain responsible for normal maintenance service and routine replacement of such maintenance items as filters, spark plugs, ignition points and wiper blades.

**SYMPHONY IN FASHIONS**, which titled the style show at Thunderbird Monday night, can also title this picture of the colorful array of ballgowns and precious jewels that constituted the finale for the show. Central figures are Bess Bender, who staged the style show for the Women's Invitational tournament, and Andrea Leeds Howard, who supplied a million dollars worth of gems for the models to wear. (Zenith Photo)

## Million Dollars in Gems in Show

A million dollars worth of jewels from Andrea of Palm Springs, accessorized the extravagant collection of Spring and Resort wear shown by Bess Bender Monday night at Thunderbird Country Club.

The Symphony in Fashion was a dinner showing, and part of the scheduled social events marking the current Women's Invitational Tournament at Thunderbird.

A tall bouquet of lavender spider chrysanthemums on stage, blended with the purple chiffon gown, with floating scarf, worn by Tournament chairman Mrs. H. H. Ridder, whose gown was accented by a spray of reddish orchids. In welcoming the dinner group, Mrs. Ridder presented her vice chairman Mrs. Fred Klemp, and introduced Bess Bender, who commented her own show.

Distinguished-looking in black, with a white mink collar on the jacket, and with her dark hair pulled high on her head, Miss Bender described the procession of attractive models, wearing clothes that are so new they had been snatched right out of the not-yet released Cruise line, in many cases.

Beautiful Dorothea opened the show, as she always does, wearing Scotch plaid shorts and matching gold-buttoned jacket. This was followed by capris and veslee in the same blue-green plaid, and a Scotch kiltie outfit, planned for the golf course.

Among other casual clothes were: white gabardine shorts and white alpaca sweater, both sprinkled with pink roses; the smart sheath and sweater in the pale pumpkin shade, which combined with a similar white dress, with pumpkin trim, to make a precious traveling pair; and the refreshingly lovely mimosa outfits.

There were brocade dinner dresses with matching jackets, a charming chiffon, with hooded neckline, in a dull gold, and a white cashmere sweater with what was described as a "casual stable collar." How casual can you get?

Very wearable and very beautiful was the white silk linen coat lined with re-embroidered powder blue lace that matched the sheath dress beneath it. Another picture was blonde Lee di Stefano in a beige lace gown and unlined lace coat, with a matching pillbox on her head.

As always, the ball gowns and

the new long and slender evening gowns that are coming back this season, highlighted the show.

Now came the models in excitingly glamorous gowns, accented by fabulous jewels and carrying flowers.

With the great violet ballgown, Barbara DeVorzon carried a bouquet of violets and wore pearls. A 53-carat diamond necklace was worn with Chansonette, the turquoise satin and chiffon gown, trimmed in Bess Bender roses of the same material.

Virginia Fields, who had modeled satins and silks and sables all evening, was a picture in the emerald green satin evening gown, with matching coat, with white mink cape sleeves, and with a \$54,000 emerald and diamond necklace about her throat. She carried gardenias, which she tossed to friends in the audience.

A show-stopper from Paris was the long fitted gown of silver paillettes, worn with a fluttery silver feather boa, and diamonds and orchids.

A floor-sweeping white silk taffeta was embroidered with rhinestones on the lower panels. It was a brilliant finale, with beautiful gowns in violet, pink, emer-

ald, turquoise, silver and white . . . and with Andrea wearing a Bess Bender gold gown.

Tonight's show at Thunderbird is the annual chuckwagon, with the Fairway Frolics, produced by Dottie Buckingham.

## Reception Honors Members

Weeks of planning and preparation resulted in a most successful affair, when Palm Springs Chapter, City of Hope held its annual membership champagne cocktail party at the Ambassador Hotel Sunday afternoon.

Mrs. Harry Epstein, president, welcomed the members and their guests, and then introduced the guest speaker, Maurice Kantro, national board member of City of Hope Medical Center, Duarte, who spoke of the "Tender Loving

Care" which each patient receives at City of Hope, regardless of race, creed or color, and emphasized that the word "Charity" is never heard at City of Hope regardless of the fact that no patient ever receives a bill. All of the Medical Center's six and one half million dollar budget is raised each year from private donations, he emphasized.

Mrs. Herman Wittenberg, program chairman, then presented a delightful musical program, the magnificent voice of Giovanni Millo, of the La Scala Opera, Milan, and well-known opera singer Geraine Giori of San Carlo, Naples, were heard in several operatic selections. Both were accompanied

at the piano by Christine Tomlinson. Violinist Count De Sessy was accompanied at the piano by Alfred Kaufman.

## SIR DONALD CAMPBELL Campbell Leaves For England But Plans to Return

Sir Donald Campbell, British speed ace who was a recent Palm Springs visitor, where he began work on a book, returned to England to duties with four major British industries — and to prepare for next year's speed runs at Bonneville Flats, Utah.

Recent attempt at world's land record of 408.135 mph, set by Britain's John Cobb in 1947, was foiled when sudden winds blew Campbell's big car off course into rough salt and alkali. The vehicle flipped, but Campbell walked away.

Campbell, who doesn't like to drive a passenger car in traffic, explained speed by saying "it's a quest. Each of us is on a journey. We do it because it hasn't been done."

The British speed challenger loves water racing, will also seek water speed record. He is serious student of physical, psychological speed factors, credits team with a major credit in speed runs. "Problems are so complex no man could know all we have to know to build such a vehicle, and race it," Campbell said.

## U.S. Aid Sought For Avenue 45 Improvement Job

A recommendation by Road Commissioner A. C. Keith that Avenue 45 west of Indio be included in the Federal Aid System in order to obtain FAS funds for its improvement was referred by the Board of Supervisors this week to the road and planning departments for consideration and recommendation.

Keith told the supervisors that the Indio city planning commission has protested the inclusion of Avenue 45 in the system and has asked that Avenue 44 be substituted, but he declared, "Avenue 44 may in the future be an important highway, but at present it does not get heavy use outside the city. A road must have substantial use to qualify for FAS funds. I believe the Indio objection is due to a misunderstanding."

## 3rd of Slaying Trio Switches Plea of Guilty

RIVERSIDE — (UPI) — David J. Seiterle, 19, changed his plea from innocent and innocent by reason of insanity to guilty Monday to charges of taking part in the murder of a prosperous Riverside businessman and his wife.

A Superior Court jury will determine the degree of murder and the sentence.

Seiterle and two other teen-agers admitted they broke into the home of Charles Duvel, 45, and his wife Sonya on Aug. 11, stole \$200 and then stabbed the couple to death.

Karl Gentry, 17, and Thomas N. O'Hara, 16, previously pleaded guilty to the crime and have been sentenced to life imprisonment without possibility of parole.

The men accepting are Ben Shearer, Gillar Boyd, Tom Kieley, Rudy Salazar and Jud Sessions. The council has asked two more persons to serve on the special committee, Earl Henderson and Hardin Hart.

## PUZZLED NUDISTS TO WEAR CLOTHES AT DOWNTOWN DANCE

SAN BERNARDINO (UPI) — The Oskdale Nudist Guest Ranch today announced an off-the-premises dance would be held Saturday night and billed it as "an exciting guessing game."

"Having associated with one another through the sunbathing season, one panics when suddenly recognizing his fellow sun worshiper in a clumsy array of clothing," the announcement said.

## Youth Appreciation Week

All of the people of this great area might well join with the Optimists Clubs to make of the Optimist Youth Appreciation Week a community-wide event. The week is an annual one and international in scope. Let's bring it close to home.

What can you do? Firstly, in appreciation of our youth, you can encourage and praise the 95 per cent which is our average youth—talk less about and help more the five per cent classified as delinquent.

Secondly, get a better sense of proportion about our kids. They'll be running our country tomorrow. What they learn from you today, in precept and in moral example, they

will be applying tomorrow in their jobs as the country's leaders.

Unless you believe, with a handful of the noisy ones, that the country is going to Hell, you're going to take a good look at this country's position today and its progress through the years before selling youth short.

Yesterday's youth, you and ourselves included, have done a pretty fair job of moving this country along, as our fathers and our father's fathers did before us. Every indication is that our youngsters will do still better.

So—pat 'em on the back this week and every week. Everyone can be an optimist about our youth.

## Macaulay's Predictions

WASHINGTON, D. C. — It has now been 103 years since the British historian, Lord Macaulay, predicted the certain and early demise of the American Republic because of its Democratic persuasions. One way to see what happened last Election Day is to check over Macaulay's predictions and see why they have failed, thus far, to materialize. He wrote from London, May 23, 1857:

"The day will come when a multitude of people, none of whom has had more than a breakfast, or expects to have more than half a dinner, will choose a legislature. It is possible to doubt what sort of legislature will be chosen? On one side is a statesman preaching patience, respect for vested rights, strict observance of public faith. On the other side is a demagogue ranting about the tyranny of capitalists... which of the two candidates is likely to be preferred...?"

IT IS INSTANTLY apparent that the USA of Macaulay's time—a country still practicing human slavery, flooded by a riff-raff of immigrants, still dependent on Europe for manufactured goods—did not develop along the indicated lines. Slavery

was abolished, immigration limited, tariffs raised against foreign goods. As a result, we developed a dominant middle-class, neither very rich nor very poor, never hungry, seldom radical.

As a primary consequence, Macaulay's description of the two extreme candidates never became fitting.

RICHARD NIXON in 1960 certainly did preach go-slow conservatism, respect for private property and fiscal responsibility. But John Kennedy, while taking opposite positions, did not rant very much. With two bland candidates, we had a bland return with Kennedy getting a 66 per cent majority of the votes, and Nixon carrying 25 of the 50 States. These are not the statistics of revolution.

Macaulay wrote: "I have long been convinced that institutions purely Democratic must, sooner or later, destroy liberty or civilization, or both—your fate I believe to be certain, though it is deferred by a physical cause. As long as you have a boundless extent of fertile and unoccupied land... the Jeffersonian policy may continue—but the time will come when... your institutions will be

fairly put to the test... your constitution is all sail and no anchor."

BUT IN 1960 two new States voted for the first time in a presidential election. American pioneering has branched off into science and space exploration. Our yield of food per acre is far greater than a century ago. Today we are on the verge of tapping an infinite supply of sweet water by desalting the seas. The constitution, far from providing too much sail, has served as a saving anchor to windward in many an emergency.

Finally Macaulay wrote: "Either some Caesar or Napoleon will seize the reins of government with a strong hand; or your Republic will be fearfully plundered and laid waste by barbarians in the 20th century as the Roman Empire was in the fifth century, with this difference. That the Huns and Vandals who ravaged the Roman Empire came from without—and that your Huns and Vandals will have been engendered within your own country by your own institutions."

Only this last fearsome prophecy still remains for Americans of our time to disprove. —Holmes Alexander

## Seeking the Real Cause

NEW YORK — They'll be poking through the remains of the 1960 election for months, maybe years, seeking the real cause of both the triumph and the disaster.

As in the wake of every upheaval of man and nature, the search for heroes and goats is already under way. First returns on these findings are, as usual, confusing. For example, we learn from one responsible source that Gov. Nelson Rockefeller curried his political future by his hot-cold activities. The complaint is that he broke public confidence in Nixon, then saddled him with an unpopular platform, then did too little too late for him in the campaign.

BUT ANOTHER source whose credentials are just as good as the former one throws his hat in the air and says, "we're a cinch in 1964 with Rocky leading us. He'd have won a walk against Kennedy."

You take your choice. And what of Mr. Nixon? There is no way of knowing, not even through the magic boxes the television boys wheeled out to do their thinking for them, but this reporter believes that the narrowness of the margin by which Nixon lost increased his political stature. He fell breathtakingly short of scoring a startling up-

set in a race in which the registration cards were sternly stacked against him. He'll be only 51 years old the next time the brass ring comes around.

AND WHAT DID this election do for the future of New Jersey's Sen. Clifford P. Case? Case, a liberal Republican, beat his Democratic opponent Thorn Lord by more than 300,000 votes while Kennedy was edging out Nixon for the state's electoral votes. Men have rocketed to greater fame than the Senate after an achievement like that.

As the vote rolled in the other night and early morning the nation was given a quiet but eye-opening demonstration of the subtle strength of Sen. Lyndon Johnson and the wisdom of Kennedy in selecting him.

SOME HAD scoffed that Kennedy was seen so rarely with his running mate during the campaign that he must be ashamed of him. The jibe of "whatever happened to Lyndon?" sounded through the GOP and, indeed, through many Democratic circles.

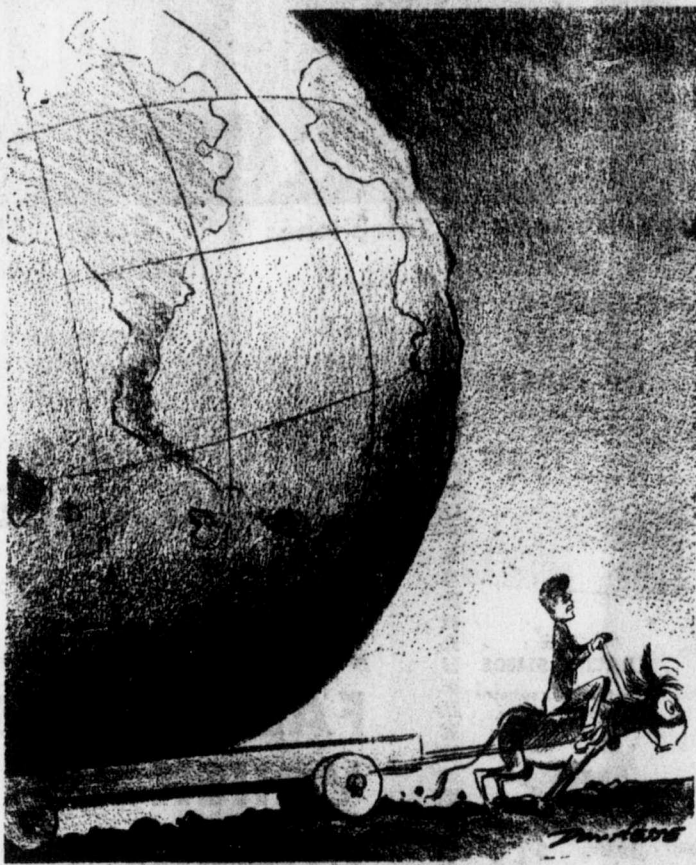

Lyndon tacitly answered that question as of Tuesday night and early Wednesday morning. Texas as didn't leave the Democratic fold, as so many Republicans were positive it would. South Carolina wasn't really going to

give its eight electoral votes to Nixon. When the chips were down, South Carolina stayed with Kennedy. There wasn't any religious rebellion in Louisiana either, no anti-platform rebellion in Alabama, Georgia or North Carolina.

THE PEOPLE who didn't see Lyndon Johnson at the big outdoor rallies forgot that as one of the greatest senate leaders ever he worked best indoors. Lyndon addressed crowds in this campaign, crowds of two and three southern governors, leaders, influential members of Congress. He kept them in line.

But what of those who poked through the remnants of the election most sought, of course, was the new image of the winner. What would he do in the first blush of victory? Which of his champions would he gather around him in his cabinet? Where lay his New Frontier, and what was beyond it? The returns in that respect are fragmentary, as this is written. But the feeling here is that he handled himself with modesty, with dignity, with the same easy grace and intelligence and skill that enabled him to hurdle—I dare say—more obstacles than had ever been strewn in the path of a presidential nominee. —Bob Considine

## Now---The Test Begins

## This Side of The Sun

By Phat

With his red wattle, A-wagging and puffed He doesn't know, in A week he'll be stuffed.

In fact, many of his kin, or of the like species, have already felt the axe and are hanging, decapitated, necks down, in cold storage. A week from tomorrow is the day.

BEING CURIOUS and always the one to seek new and useless words to clutter up my vocabulary, I wet-thumbed my way through my dog-eared dictionary to see what Messrs. Funk and Wagnalls had to say about the turkey. And I wish I hadn't.

It's going to make the turkey harder to digest as I was barely able to digest the definition.

I BET YOU DIDN'T know that a turkey was either of two large American gallinaceous birds constituting the genus *Meleagris*... which is domesticated... and esteemed for eating.

I hope that that gallinaceous doesn't throw you and spoil your dinner.

Anyway, if it does just switch on the TV, any station. You won't go more than 10 minutes before you'll see and hear some guy making a pitch for the best remedy to take care of an upset stomach.

BUT WHILE discoursing on Thanksgiving, a week from tomorrow, a related thought pops into mind. Two of them.

First — It is a day of poetic justice. First we stuff the turkey, and then he stuffs us, Or she, depending on the state of your pocketbook.

For in this case the female of the species is more valuable than the male.

Being under-privileged in domestic affairs, I asked Mrs. G. which cost more, a Tom or a hen turkey.

She informed me it was the distaff side that was more costly. I guess that's all right, too. Women are expensive.

THE OTHER THOUGHT brought to mind on Thanksgiving Day is that, while science has been wonderful and we have many new inventions and products to ease our lives, they have failed in one big category.

Why don't they go to work and breed a four-legged turkey? A quadruped, yet. Think of the arguments that would eliminate!

IT WOULD ALSO preclude the necessity of buying two turkeys because three or more of the diners prefer the drumstick.

I know. Back in Hinsdale, Ill., my doctor son has to buy THREE turkeys. Or gnaw on the neck.

Each of the four grandsons wants the drumstick — all of it. No partition.

OF COURSE, this Turkey Day essay is slightly premature but I always like to look ahead. Like there are only 32 shopping days left to mail it early or to shop early.

And that, if five months from today you haven't mailed in your check, you're delinquent on your income tax.

## STAN DELAPLANE:

## 'You Have Dialed...'

The telephone man came the other day and disconnected the teen-age telephone. And a gloomy quiet descended upon the manse.

The telephone was disconnected for disciplinary reasons.

IT WAS PUT IN as a reward. It was pulled out as punishment.

The Bell Telephone Company gives and the Bell Telephone Company taketh away.

THIS ADDS something new to the field of communications — something beside the 10-cent call, the unit system and the wonderful way AT&T splits itself when I haven't a crying share of the stuff.

It adds the field of human emotions. Crime and punishment.

IT COMPLICATES an already complicated instrument.

I wonder what Alexander Graham Bell would think if he knew his invention is now being used to penalize teen-age girls.

WHILE THIS ACT seemed absolutely unmerciful — and a good deal of bitter talk has been going on: it has been going on via the family telephone which has become clogged again with teen-age calls.

It really is a question who is being punished.

While this act seemed cruel, I have been shedding little rays of light around. Silver lining stuff.

LIKE: "I SOMETIMES wish I did not have a phone. So people could not call me from lunch in New York and get me out of bed."

Or I say: "How nice it must be to have that long telephone cord out of the way so you do not trip over it."

OR, "ONE THING you can say about not having a telephone: You do not have to sit around and wait for somebody to call you."

I must say that my cheery efforts have been received most

cheerfully. Even churlishly.

PERSONALLY, I think a telephone can be a deadly instrument. Mr. Alexander Graham Bell hooked up the first phone and made the first call. It was not long distance. It was right into the next room.

He said: "Mr. Watson, come here. I want you."

Mr. Watson heard him and came right in the room. History does not record what happened then. Though I have often wondered.

FIRST, I IMAGINE Mr. Watson said: "Here I am. What do you want me for?"

This would be a stopper. For Mr. Bell did not really want him for anything. He was just making the first telephone conversation and had to say something.

In order not to appear foolish, he must have had to make up something.

HE WOULD HAVE to say something like: "What are the odds on Short Ribs in the fifth?" Or, "You didn't happen to pick up my reading glasses by mistake, did you?"

The point is, here is the first phone call in the world. Already the caller is in trouble.

THIS IS THE problem with communications. From signal flag to satellite Echo.

We hook up new ways to say it before we know what we are going to say.

The teen-age phone is installed before the teen-ager is over the teens.

MOST OF MY incoming phone calls are frivolous and could be postponed or said by letter. I suspect my own calls are about the same. (I discount the utility calls to the butcher and baker.)

In the field of human relations, I find most of my incoming calls bear disaster. And my outgoing calls rail against Fate.

Between these two I get: "The number you have dialed is not a working number." The story of my life, you might say.

## GRIN AND BEAR IT By LICHTY

## MIKE CONNOLLY:

## Peace-Pipe Smoking

HOLLYWOOD — My Warner TV pipeline tells me there's some peace-pipe smoking between the studio and Jim Garner (he's been on strike for more money for his services in Maverick). My source also says Jim will get a new non-Western series under his soon-to-be-announced new contract. And that his new co-star will be Dana Andrews. It sounds like a cops-'n'-robbers series, a la The Untouchables.

Britisher Frankie Vaughan showed up at Fox-TV the day after the election and cracked: "Crikey, but you Americans are wonderful — yesterday you were all at each other's throats but today you're all behind the new President and apparently don't remember the hard feelings at all. Remarkable, amazing — truly, old chap!"

I HAVE RECEIVED thousands of kookie publicity handouts from studio press agents in my day but this, from Fox, is the kookiest yet: "Animal husbandry experts at Fox are actually trying to make a pelican and a turkey — really — in order to produce the pelley that must result from such an affair in All Hands on Deck." I kid you not. The studio sent it in. Shall I send it to the Smithsonian Institute? The words "really" and "actually" in the handout, incidentally, are REALLY and ACTUALLY there!

I'm glad to see the ratings on the Hennessy (cq) series soaring. Because I like to see Abby Dalton when I dial in that show.

ALLIED ARTISTS producer Al Zugsmith is nudging Nat ("King") Cole to free himself from all his TV-nightclub-theatre entanglements and tangle with Dorothy Dandridge in the late Billie Holiday's life story, Lady Sings the Blues. A movie.

Steve McQueen is spearheading a new California syndicate that's spending \$150,000 to build a new sports center in Hollywood. It's the last gasp of Steve's racing fever. His ever-lovin' wife, Neile Adams, is the one who lowered the boom when his own studio couldn't get him to quit.

WORD RECORDS, a religious label, is rolling with Ethel Waters' Christmas album. All spirituals — Jesus Is Mine, Deep River, Partners with God, etc. — save one tune, Mammy. Cannonball Adderley claims he bought the first copy off the press of Leonard Bernstein's new book, The Joy of Music — for SCALE!

HOLLYWOOD HOTSTUFF — Never in all my movie-going years have I seen an actress bounce off the screen in her first part with such built-in excitement, such authority, such sex appeal, such born-for-it-all star quality as Nancy Kwan exudes in The World of Suzie Wong. She stands out like 48-point Gothic type on a nine-by-12 page. She glows like a banked fire. She steals it all from her co-star, Bill Holden. The World of Suzie Wong will always be remembered by worldwide movie-goers for Nancy Kwan. Welcome to Starville!

Jayne Mansfield's face and form have appeared in practically every newspaper and magazine. Several Villagers have complained the past few weeks of low flying aircraft over the city, according to City Manager Russell Rink. Rink has contacted the commandant of the 11th Naval District and the commanding officer of March Field Air Force Base asking cooperation.

"Little Engine That Could," French-style, complete with puffing smoke-stack, steam whistle, bell and built-in chug, soon will emerge from Lou Billington's garage as a proud symbol for Coachella Valley's American Legion Forty-and-Eight Voiture.

Supervisors this week approved plans for branch court house buildings at Indio and Hemet, and invited bids from contractors for their construction.

As first move to answer the dance problem in Palm Springs, the new city recreation commission has arranged to present dances twice weekly at the elementary school auditorium. There will be proper official supervision of all these affairs.

Williams President, Wexler Secretary For Coming Year

On Nov. 9, two Palm Springs Architects were honored by their professional colleagues of the Inland District, Southern California Chapter of the American Institute of Architects when Stewart Williams of the firm of Williams and Williams was elected president and Don Wexler of the firm of Wexler and Harrison was elected secretary for the coming year.

Both men are well known in the fields of planning and architecture. STEWART WILLIAMS came to Palm Springs from New York, after service in the Navy during World War II, and joined his father and brother in founding the firm of Williams, Williams and Williams. Many of the most modern buildings in the Desert area, such as the new Riverside County Administrative Center in Indio, the Desert Hospital, and the Palm Springs High School reflect his extensive training in architecture both in this country and in Europe.

In 1954 his firm received an Honor Award for the design of Temple Isaiah, the Jewish Community Center in Palm Springs, and many examples of their work have been published by Architectural Forum and other professional architectural magazines in the United States and Europe.

DON WEXLER is a graduate of the University of Minnesota and formed his present firm of Wexler and Harrison in 1953. His firm is well known for extensive housing and apartment developments and for the use of prefabricated steel components for classrooms, which they have pioneered in the desert area.

Among his firm's most recent and most outstanding work is the beautiful Palm Springs Spa, a graceful, arched structure sheltering the famous old Indian Hot Springs in the desert community.

## New First Lady Plans 'Routine' Life in Capitol

WASHINGTON — (UPI) — Mrs. John F. Kennedy, wife of the president-elect, plans to lead a "quiet routine" life in Washington as she awaits the birth of her baby, expected about mid-December.

The nation's next first lady returned to Washington with her daughter, Caroline, 3, and told reporters it was "wonderful" to be home.

She decided against accompanying her husband on his West Palm Beach, Fla., working vacation in order to be closer to New York Hospital where she plans to have her baby.

The current first lady, Mrs. Dwight D. Eisenhower, is expected to invite Mrs. Kennedy to the White House to show her around before inauguration day.

## ALMANAC

Today is Wednesday, Nov. 16, the 32nd day of the year with 45 more in 1960.  
The moon is approaching its new quarter.  
The morning star is Mars.  
The evening stars are Jupiter, Venus and Saturn.  
On this day in history:  
In 1864, General William Sherman and his Union army of 60,000 men started their famed march to the sea.  
In 1907, Oklahoma became the 46th state in the Union.  
In 1914, 12 Federal Reserve banks were opened formally.  
In 1932, the most famous vaudeville theater in America, the Palace in New York, closed its doors.  
In 1933, the U. S. and the Soviet Union established diplomatic relations.  
In 1953, former President Harry Truman made a nationwide radio broadcast to refute charges he appointed an alleged Communist spy to high government office.

Thought for today: French writer Victor Hugo said: "Popularity? It is glory's small change."

PRETTY GRETCHEN STAINBROOK Friday night was chosen as Queen of Palm Springs High School homecoming, and was installed on the throne at the annual homecoming dance at the Palm Springs Playhouse. Miss Stainbrook was selected by members of the Palm Springs Indians Football team. Standing beside her, on left is Lloyd (Trey) Gault,

presenting her with a bouquet of roses, and at right, Harry Karuzich, who fastened the coveted football necklaces around her neck. In the foreground, left to right, are princesses Sally Stevens, Rosanne Sullivan, Judy Sandire and Vicki Biss, the four girls who also vied for the title. (Desert Sun Photo).

### Recreation Varied at Skyridge

By AL NEHL

The diversity of recreational interest that characterizes the mobile home dwellers of the Desert, is nowhere better exemplified than in the winter schedule of Skyridge Park.

Activities range from dancing, cards, dinners, ladies luncheons, inter-member shuffle tournaments, physical education classes, arts and crafts circles, including mosaic, bead-work and decorative inlays to illustrated travelogues, men's and women's discussion groups and his'oric and literary lectures.

THE PROGRAM FOR the winter is being planned and carried out with a wealth of careful detail and imagination by a Master-Park - Committee, along with various branch and subcommittees, with an enthusiastic interest.

### Mayor's Meeting To Be Started

Mayor Frank Bogert today set the first Thursday of each month as the date for the Mayor's Coordinating Council meetings.

The first meeting of this season will be held Dec. 1 at the Oasis Hotel.

Handled by the Palm Springs Chamber of Commerce, the meetings are attended by representatives of local organizations who with the mayor and members of the council, discuss the needs of the community.

"master slickers" with a reputation to maintain, as well as several promising newcomers. The games were close and the competition keen, and George Trimm and Tom Hollingsworth finally triumphed.

In the ladies tournament, Cheta Ranson and Ina Johnson, both of whom have made practice serious and admitted skill pay off, were the winners on Wednesday.

IN THE NECESSARY absence of Margaret Sargent, Marquerite Gregory, frequently a talented and willing substitute, took charge of the crafts class on Nov. 7, which devoted itself to producing a num-

On Monday, Tuesday and Friday of last week, Nan Holland, a Canadian from Vancouver, B.C., introduced an interested class of women to a balanced series of physical health exercises. This class will continue for three days each week, during the winter.

The ladies luncheon, held twice a month, with the changing chairman in charge, vie with one another to produce dainty and delicious menus, was followed on Nov. 10 by an interesting afternoon of bridge and canasta.

IN THE EVENING an appreciative audience of Skyridgers and their guests, were treated by Lee Oldfield to an instructive and interesting lecture on modern Mexico and the archeological saga of the ancient Incas.

At 9 a.m., Nov. 12, Mr. and Mrs. Rutledge, who recently purchased the park, were hosts at their first complimentary breakfast, held on the greensward at the park entrance. In the hands of four talented volunteer chefs, the already famous Skyridge buffet produced more delicious hot - cakes than ever before. ## Dear Abby...

DEAR ABBY: This morning I received a telephone call from a man who would not tell me his name. He just told me to give my husband a message. The message was please to stay away from his wife. I almost fainted. He said his wife worked with my husband and if I gave my husband that message he would know who the woman was. I gave him the message and he said somebody must be playing a joke on me. I am expecting in 3 months and am so upset and nervous I can't think about anything else. Should I believe my husband or try to get to the bottom of it?

NERVOUS AND UPSET

DEAR NERVOUS: An anonymous telephone call is not worthy of your consideration. It could have been a "joke," a trouble-maker, or a wrong number.

DEAR ABBY: I wear glasses. I have had a boy say to me, "I wish you would take off your glasses when I am trying to kiss you." Well, Abby, how is a girl supposed to know when a boy is going to try to kiss her? I would feel pretty foolish taking off my glasses when he didn't even have it in mind.

FOUR EYES

DEAR FOUR EYES: When you find approximately twelve inches between your nose and his nose if the time, place and the boy are right—slip your glasses off.

DEAR ABBY: My son, who is 19, is in the service and is stationed at a nearby camp. He and a 15-year-old girl who lives in our home town claim to be married. The girl says she doesn't want her

parents to know it as they think she's too young. Every weekend my son comes home and the two of them spend the weekend here in this house like a married couple. I ask them to show me their marriage license and they say one of their friends has it. I'm a widow and don't know how to handle this alone.

WORRIED MOTHER

DEAR MOTHER: DO NOT allow your son and this girl to weekend together until they provide proof of their marriage. Married or not, your son needs supervision and so does the girl. Meet her parents immediately and find out what the situation is — or be prepared for trouble later.

DEAR ABBY: You stated that Judo was short for Jujitsu. You are mistaken. Judo is a sport and Jujitsu is the weaponless art of self-defense in which the aggressive movements of the attacker are used against himself by the use of leverage and off-balancing techniques. You are forgiven, however, because very few people

know the difference.
